Echo Visual Health Record v11 attained 2015 Edition Health IT Module Certification via Drummond Group LLC, an Authorized Certification Body (ACB). This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

Vendor: The Echo Group
Certification Date: December 20, 2017
Product name/version: Echo Visual health Record v11
CHPL Product Number: 15.04.04.2425.Visu.11.00.0.171220
Modules Tested: 170.315 (a)(1)(3)(5-15); (b)(2); (d)(1-8); (f)(1); (g)(3-6)
Additional software relied upon to demonstrate compliance: DrFirst Rcopia, EMR Direct Interoperability Engine, Change Healthcare Clinical Exchange

Click Here for Additional Costs and Limitations of Certified Health IT this should link to our Costs and Limitations language I sent over earlier added below – this paragraph and the table:

Costs and Limitations: These certified products-versions require an annual contractual commitment for vendor application as well as a contractual commitment for third party products that may include one-time costs to establish interfaces for reporting, lab services, pharmacy services and secure email and on-going annual fees to support the same. DrFirst licensing is non-transferable per named DEA licensed prescriber. EMR Direct licensing is based on the number of paid billing providers. Lab fees are based on the number of labs (in or out of network). All users of DrFirst and EMR Direct must go through identity proofing. There are no known technical or practical limitations.

Costs and Limitations of Certified Health IT

Capability	Description of Capability	Costs or Fees *Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability*	Contractual Limitations *Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter in the implementation or use of the capability -OR- in the connection with the data generated in the course of using the capability*	Technical or Practical Limitations *Limitations of a technical or practical nature that a user may encounter that could prevent or impair the successful implementation, configuration, maintenance, support or use of the capability -OR- prevent or limit the use, exchange or portability of any data generated in the course of using the capability*
